

# OMNY MEDIKIT

## Remote Patient Monitoring

No Apps to download,  
No mobile phones required

Direct, Instant Communication  
To healthcare providers

Complete privacy and security  
of personal data

OMNY Medikit simplifies health monitoring in the comfort of one's home.

Doctors, healthcare providers, hospitals get instant access to the vitals record of in-home patients and seniors continuously, securely.

Pulse Oximeter

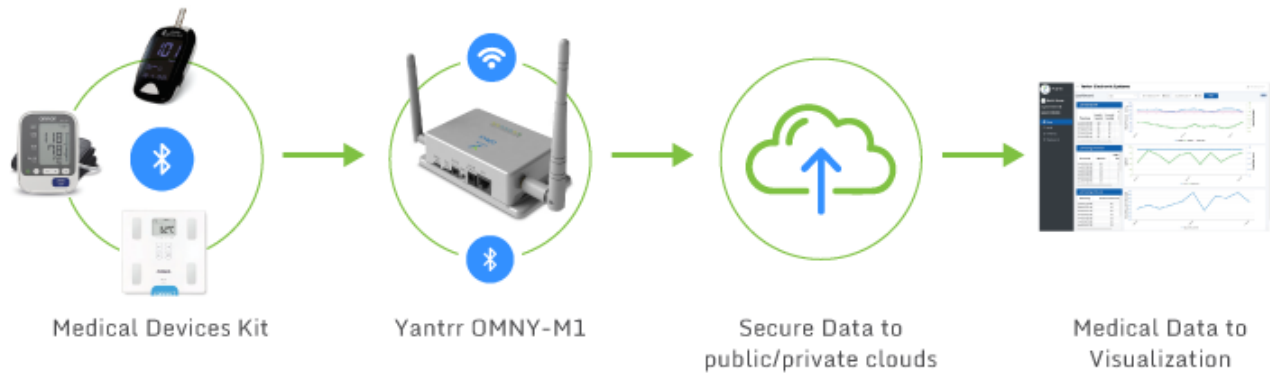

Weight Scale

Glucometer

Blood Pressure

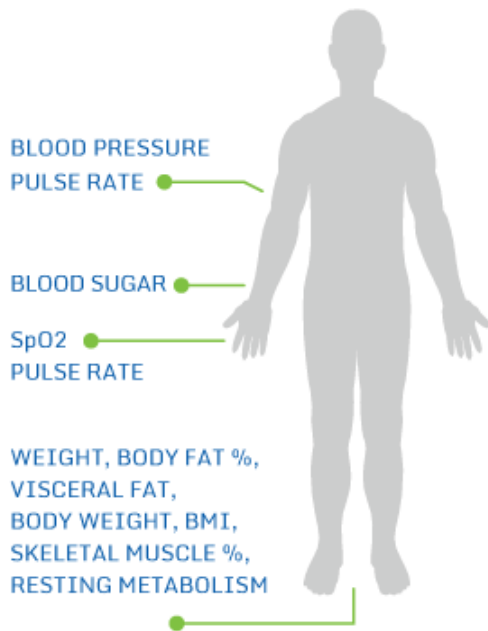

The patients vitals are automatically uploaded by the OMNY-M1 hub to the cloud without any user interaction
